FRENCH ROCKS SUB-DIVISION.

The 21st March 1893.

Proceedings of the District Fund Committee of the French Rocks Local Fund Circle.

A meeting of the Committee was held this day as per Government Proceedings No. 6098-6106—L. F. 210-92, dated the 1st November 1892, in order to ascertain the progress made in works sanctioned and for the works which may be sanctioned for the year 1892-93.

The following Members were present :—

Ex-Officio Members.

K. Muhammad Ali, Esq., Sub-Division Officer and President.
T. V. Arunachalam Mudaliar, Esq., Officiating Executive Engineer, French Rocks Division.
P. H. Benson, Esq., Civil Surgeon.

Mr. Raju Mudaliar, Amildar of Mandya.
" Ramaswamaiya, Amildar of Malvalli.
" Khadar Ali, Amildar of Nagamangala.

Non-Official Members.

Mr. Timmegauda of Seringapatam.
" Sitaramaiya of Malvalli.

The following Members were absent :—

Ex-Officio Members.

Mr. Krishnamurti Rao, Amildar of Krishnarajpete. He has reported that he could not attend the meeting as his mother died on the 17th instant.
" Krishnaiengar, Amildar of Seringapatam.

Non-Official Members.

Mr. Rangaiengar of Krishnarajpete.
" Ramanna of Mandya.

Read the District Fund Budget sanctioned for the year 1892-93 and also the statements showing the amount spent on each work up to end of February 1893 ; progress satisfactory and recorded.

PUBLIC WORKS TO BE EXECUTED BY PUBLIC WORKS DEPARTMENT.

I.—Original Works.

The amount sanctioned under this head as per Government Proceedings No. 5331-52—853-74, dated 9th December 1892, is Rs. 16,500 ; of this, Rs. 7,209—14—11 was spent up to end of February 1893 on works already sanctioned. With regard to opening out Krishnarajpete-Beriya road passed in the former meeting mentioned in the statement, the Executive Engineer explains that the project of opening out the road was not sanctioned by the Chief Engineer and that the allotment therefor may be appropriated for extending Mandya-Melkote road and for putting in perfect order the portion of the road already in existence. The Committee passed the proposal.

The Executive Engineer also requested the Committee to select some important works that may be executed out of Rs. 1,000 sanctioned for Miscellaneous Public Improvements. The Amildar of Mandya proposed that a well 10 feet in diameter with pulleys may be sunk at Mandya or at a suitable spot near the Taluk Gutcherry. The Committee passed the proposal, the cost being met from the District Funds as there was no money in the Municipality.

The Civil Surgeon having explained to the Committee the benefits of a pump used for drawing water from wells instead of pulleys, the President proposed that a pump may be sanctioned to the soda water, well which is the only good drinking water at French Rocks, but is now being corrupted by letting into it all sorts of ropes and pots. The Executive Engineer seconded the proposal and the Committee resolved that the Executive Engineer may be requested to purchase a pump at a moderate cost and fit it to the well.

Mr. Sitaramaiya of Malvalli proposed that a road from Malvalli to Muttanahalli *vid* Marehalli tank bund may be opened and joined to Seringapatam, Sosile-Sivasamudram road as the distance is only 8 miles and it would facilitate traffic. The Amildar of Malvalli seconded the proposal. The Committee resolved that the subject may be taken up and disposed of at the next Budget meeting.

II.—Repairs.

Under this head Rs. 24,000 was sanctioned. The amount spent up to end of February 1893 is Rs. 15,625—4—11 and the progress of works is satisfactory.

The Amildar of Mandya proposed that the pond (Gajendra Kola) which is beyond the Municipal limits at Maddur may be improved by clearing the silt, as it was very useful to travellers as well as to inhabitants of the place during the hot weather.

The Amildar of Nagamangala proposed the same regarding the well near Subedar's Chattram as it is very useful for drinking water not only to travellers but also to the villagers.

The President seconded these proposals and stated that the cost may be met from Reserve Grant under repairs. The Committee resolved that these repairs may be carried out by Public Works Department.

In the same manner the Executive Engineer proposed the deepening of the Panakadabhavi and fixing a pulley to it at French Rocks.

Public Works to be executed by Revenue Officers.

The amount allotted under this head as per Government Proceedings No. 11458-62—L. 1061, dated 20th January 1892, is Rs. 2,760—0—0. Of this, Rs. 706—10—3 has been sanctioned for sinking wells. The works are progressing satisfactorily.

The Sub-Division Officer proposed that a parapet wall with a pulley may be constructed to the drinking water well (General Bavadi) at French, Rocks which as it now stands level with the ground, is dangerous to the public and the cost may be met from General Savings as there was no money in the Municipality.

The Executive Engineer seconded the proposal. The Committee passed it.

The Amildar of Mandya proposed that the amount sanctioned for the improvement of the pond at Kothathi as desired by the villagers for supplying good drinking water to them may be appropriated for sinking a new drinking well. The President seconded the proposal as he considered that the villagers require the pond simply to wash their sheep in it and any money spent on it will not improve the health of the people. Therefore a new drinking well which can be dug with the same amount is far better. The Committee passed the proposal.

Mr. Sitaramaiya of Malvalli proposed that the tank of Upala over which the Seringapatam, Sosile-Sivasamudra road runs, being narrow, entails great danger when two carts meet at the same time upon it, specially as the bund is not railed. The Committee resolved that the subject be referred to the Deputy Commissioner of Mysore as the tank in question belongs to T. Narsipur Taluk.

Read the report from Rangaiengar, Non-Official Member of Krishnarajpete Taluk, proposing the following works to be undertaken.

(1) Constructing a village Chavadi and a Kasaba Chavadi both at Krishnarajpete Kasaba.
(2) Constructing a flight of steps to the Krishnarajpete Tank.
(3) Constructing a Musafarkhana near Kagehalla where a great many travellers and carts halt invariably during nights.
(4) Sinking a well for drinking water at Krishnarajpete.

The resolution made by the Committee on each of the points is as follows:—

(1) The owner of the site selected for the purpose refused to give it up free and as there are no funds available the works cannot now be undertaken.
(2) There are no Municipal Funds available for the purpose and there is no urgent necessity for any such steps at present. The inhabitants can now descend into the tank easily and can resort to the channel below also. In 1891-92 when the similar recommendation was made it was rejected by the Government on the ground that the Municipality should bear cost.
(3) There is no use in constructing a small Kasaba building here which will soon be destroyed. A good mantapam vasare is what is required. This may be considered at the next Budget meeting.
(4) The estimate received from the Amildar has been submitted to the Deputy Commissioner.

Civil Charges.

The amount sanctioned under this head is Rs. 7,093, as per original estimates and as per supplemental Budget submitted for sanction is Rs. 1,654, and the total Rs. 8,747. Of this, a sum of Rs. 5,757, has been provided for Hospital Dispensaries, Vaccination, &c., charges and Rs. 2,990, for conservancy and sanitation in rural parts of the Taluks of the Sub-Division.

Out of the former amount, a sum of Rs. 1,632—6—8 has been expended up to the close of December 1892 as per Comptroller's account. Out of the latter sum, none has yet been spent. But estimates amounting to Rs. 750—0—0 for the conservancy and sanitation of Halagur, Kirgaval and Kalkuni villages of the Malvalli Taluk have been sanctioned by Government and needful orders have been issued to the Amildar to carry out the works. And a similar estimate for Rs. 944—0—0 for improving the drainage of Kikkeri, Krishnarajpete Taluk, has been submitted to the Deputy Commissioner to obtain the sanction of the Government.

Statement showing the amount allotted out of District Funds for conservancy and sanitation in rural parts of the Taluks of the French Rocks Sub-Division during the year 1892-93.
